

South Carolina Coalition for Healthy Families Common Agenda

Supporting Reproductive Health

The South Carolina Coalition for Healthy Families is a network of organizations that advocates, educates, and collaborates to expand access to sexual and reproductive health information, services, and rights for all South Carolinians. We support the adoption and implementation of laws and policies that:

- Expand access to evidence-based, age-appropriate, culturally- and linguistically-appropriate, comprehensive sexual and reproductive health and disease prevention education in schools and communities.
- Enhance accessibility, affordability, and availability of the full range of sexual and reproductive health services for all South Carolinians.
- Ensure all South Carolinians are informed and empowered to make decisions, free from coercion, bias and stigma, about their sexual and reproductive health, including decisions about if, when, and under what circumstances to become parents.
- Support all families to enhance their health and well-being.
- We commit to improve the health and well-being of all South Carolinians, inclusive of all genders, gender identities, races, ethnicities, religions, national origins, physical and emotional abilities, ages, and regardless of immigration and socioeconomic status.

SCCHF Values Statements

- Because these factors are determinants of individuals' sexual and reproductive health status and rights, our advocacy, education, and collaborative activities prioritize underrepresented or marginalized groups. As a Coalition, we strive to increase representation of underrepresented or marginalized groups to help determine the policy issues we address and encourage active participation by such groups in all activities.
- Through our activities, we strive to support the full physical, mental, spiritual, political, social, and economic well-being of people, families, and communities.
- We commit to bringing available scientifically-rigorous evidence to policy debates and support the generation of evidence where it is lacking.

Supporting Groups

In addition to these partners, many organizations throughout South Carolina have committed their support for the South Carolina Coalition for Healthy Families Common Agenda. For the most recent list of supporters, please visit scwren.org/about/sc-coalition-healthy-families.
