

WOMEN'S ECONOMIC EMPOWERMENT AGENDA

Our vision for economic empowerment is for all women to be economically secure, capable, and mobile. An agenda for economic empowerment will improve girls' and women's access to education, employment, and assets and social supports, within an environment that promotes their safety, agency, voice, and connectivity.

Goal 1

Education | Improve access to high quality educational settings and opportunities from early childhood through post-secondary education and workforce training.

Goal 2

Employment | Create a more inclusive and diverse workforce where all women can thrive.

Goal 3

Assets and Social Supports | Ensure women and their families have access to essential services and resources that promote economic stability and mobility.
